

Print colours TampoEco

*developped especially
for pad-printing*

- 1- & 2 component allround colour
- highly pigmented and therefore phenomenal in covering power
- universal adhesion at lots of print material
- all mixture systems from Pantone, RAL and HKS available

Print colours TampoEco

The pad printing colour TampoEco was developed especially for prints on advertising material.

This allround colour can be used for universal applications.

Synthetic colour pigments

guarantee absolute constant high quality, this colour is unmagnetic.

A generated mixture system (**Pantone, RAL, HKS**) to achieve the definite special shade is available.

Our **applications engineering** offers support for colour recommendations, colour print proofs and for all queries concerning pad-printing. **Optional on site.**

Features:

- low priced pad-printing colours
- shades with high covering power
- quick-setting, according EN 71-Norm
- 1- & 2 component- allround colour
- for technical-industriell scope
- perfect for printing on advertising material

Material suitable for prints:

PVC, coated Polyester,
PET, Polyamid, Polystyrol,
ABS, SAN, Acrylglas,
Polycarbonat, lacqued grounds,
